Instructions for Completing the Rock Crushing Plant Registration

General Information:

A Registration form must be completed for each facility that is subject to 40 CFR Part 60, New Source Performance Standards and/or 40 CFR Part 63, National Emission Standards for Hazardous Air Pollutants, that is not located at a major facility.

Section 1: Facility Information

Please fill out the following information for Section 1:

- 1) Facility Name: Name of Business
- 2) Contact Name: Name of person to whom all correspondence should be addressed to.
- 3) Responsible Official: (see below)
 - Of a corporation: A president, secretary, treasurer, or vice president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation, or a duly authorized representative of such person if the representative is responsible for the over-all operation of one or facilities.
 - Of a partnership: A general partner.
 - Of a sole proprietorship: The owner.
- 4) Mailing Address for the facility.
- 5) Facility Address (if different than the mailing address).
- 6) Facility Telephone Number.
- 7) Name of the Owner(s)/Operator(s).
- 8) Mailing Address of the Owner(s)/Operator(s).
- 9) Phone Number(s) of the Owner(s)/Operator(s).

Section 2: Nonmetallic Mineral Processing Plant Information

Please fill out the following information for Section 2 *for each rock crushing facility* (The Registration Form may be photocopied in order to provide the additional facility information):

- 1) Place a check in the box next to the crusher type that is the primary crusher at the rock crushing facility.
- 2) The number of each type crusher and its corresponding serial number, date of manufacture, and rated capacity.
- 3) Provide the actual throughput of the rock crushing facility for year 2000.

Section 3: Electrical Generator Information

Please fill out the following information for Section 3:

- 1) Provide the name of the generator's manufacturer and corresponding model number and output capacity in kilowatts.
- 2) Provide the actual number of hours the generator operated during year 2000.

Section 4: Pollutant Registration

This section requires that the annual emissions from the facility be calculated for any regulated air pollutant. This may be based on one of the following:

- Actual annual emissions; and/or
- Estimating actual annual emissions calculated using the unit's actual operating hours, production rates, in-place control equipment, and types of materials processed, stored, or combusted during the preceding calendar year; OR, DEQ WILL CALCULATE EMISSIONS FOR REGISTRATION PURPOSES USING A SPREADSHEET SPECIFICALLY DEVELOPED FOR ROCK CRUSHING FACILITIES USING DEQ/EPA EMISSION FACTORS AND BASED ON THE INFORMATION PROVIDED ON THIS REGISTRATION FORM.

Signature Required

A Responsible Official, as identified in Section 1, must sign the Registration Form, certifying that the statements and information provided on the registration form are true, accurate, and complete.
